The Portland Chapter of RCI invites all consultants, contractors, students, and design professionals practicing in the roofing, waterproofing and building enclosure fields to attend this 2-Day **Waterproofing** Education Symposium.

The two-day course is designed for the practicing waterproofing consultant and those who are aspiring to become a Registered Waterproofing Consultant. This course focuses on split-slab plaza deck systems, surface-applied waterproofing, and below-grade waterproofing. The course starts with a review of differences between roofing, dampproofing, and waterproofing.

Other topics include waterproofing materials and accessories used for various applications, design and specification, application techniques; and a thorough review of concrete used as a substrate for waterproofing, including typical concrete repair materials and techniques used for restoration of concrete slabs prior to application of waterproofing systems.

Educational Credit for each day includes:

- 16 Continuing Educational Hours (CEHs) from RCI, or
- 16 Learning Units (LUs) from the American Institute of Architects. Approved for Health Safety & Welfare Credit.

CHAPTER PRESENTATION & Meeting - Evening of 11/29

Jim Arnold, Director of Product Development at Kemper System America, will present on **KSA-1 Cold Liquid Applied Roofing & Waterproofing Systems**, and a chapter meeting will be held to update the status of the Portland Chapter and to elect new Board Member for 2019. This meeting will be held shortly after the conclusion of the Day 1 Education Course and will provide 1 Continuing Education Hour (CEH) from RCI.
